# Department of Mathematics
Assistant Professor
Position Announcement

Applications are invited for a tenure-track Assistant Professor in Statistics. Position expected to begin August 18, 2020. Requirements include a Ph.D. in Mathematics, Statistics or related fields and outstanding publication record in Statistics. Candidates must demonstrate an outstanding record of research and must be strongly committed to excellence in teaching.

For a complete announcement and to apply online go to https://employment.ku.edu/academic/15639BR. A complete on-line application includes: C.V., cover letter, research and teaching statements, and the names and contact information for four references. In addition, at least four recommendation letters (teaching ability must be addressed in at least one letter) should be submitted electronically to MathJobs.org at https://www.mathjobs.org/jobs/jobs/14660. Review of applications will begin November 18, 2019 and continues as needed to ensure a large, high quality, and diverse applicant pool.

KU is an EO/AAE. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy), age, national origin, disability, genetic information or protected Veteran status.

The University of Kansas is a major public research and training university and is the only Kansas Regents university to hold membership in the prestigious Association of American Universities. KU offers the highest quality undergraduate, graduate, and professional programs, as well as outstanding libraries, museums and technology. The university fosters a multicultural environment in which the dignity and rights of individuals are respected. In a continuing effort to enrich its academic environment and provide equal educational and employment opportunities, the university actively encourages applications from members of underrepresented groups in higher eduation.

The Department of Mathematics has an internationally recognized faculty and a strong graduate program leading to both the M.A. and Ph.D. degrees. A broad range of programs is possible including algebra, analysis, combinatorics, control theory, dynamical systems, algebraic and differential geometry, numerical analysis, probability, statistics, stochastic processes, partial differential equations, set theory, and topology. The department has a long tradition of excellence. The first Ph.D. granted west of the Mississippi was in mathematics at KU in 1895. Recent interdisciplinary work has involved projects in biology, computer science, economics, engineering, finance, geology, medicine, and physics.
