

Department of Mathematics Lecturer Position Announcement

Applications are invited for a part-time Lecturer to teach at Lawrence campus. Position expected to begin August 18, 2019. Master's degree in Mathematics, Mathematics Education, or a related field that has a strong math component. Include a copy of your transcript, if the degree has been obtained in the past 5 years. Previous Mathematics teaching experience at the college or university level.

For a complete announcement and to apply online go to <https://employment.ku.edu/academic/I3804BR>. A complete online application includes: C.V.; cover letter; transcript copy if degree has been obtained in the last five years; and the names and contact information for three professional references. Review of applications will begin July 26, 2019 and continues as needed to ensure a large, high quality, and diverse applicant pool.

KU is an EO/AAE. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy), age, national origin, disability, genetic information or protected Veteran status.

The University of Kansas is a major public research and training university and is the only Kansas Regents university to hold membership in the prestigious Association of American Universities. KU offers the highest quality undergraduate, graduate, and professional programs, as well as outstanding libraries, museums and technology. The university fosters a multicultural environment in which the dignity and rights of individuals are respected.

The Department of Mathematics has an internationally recognized faculty and a strong graduate program leading to both the M.A. and Ph.D. degrees. A broad range of programs is possible including algebra, analysis, combinatorics, control theory, dynamical systems, algebraic and differential geometry, numerical analysis, probability, statistics, stochastic processes, partial differential equations, set theory, and topology. The department has a long tradition of excellence. The first Ph.D. granted west of the Mississippi was in mathematics at KU in 1895. Recent interdisciplinary work has involved projects in biology, computer science, economics, engineering, finance, geology, medicine, and physics.
